

NO BETTER QUESTION

(Jugendhaus Heschl)

Song: "Stay"

Sprühend energiegeladenen Funkrock bringen die vier Jungs von No Better Question seit 2009 auf die Bühne. Sie vereinen dabei Rockriffs mit Jazzeinlagen und verzaubern seit Anfang letzten Jahres eine immer größere Fanbase mit ihrer schweißtreibenden Musik. Wer einmal in ihren Bann gerät, dem fällt es schwer mit dem Tanzen aufzuhören.

- Dario N (Vocals/keys)
- Dave Q (Guitars)
- Funky France (Bass)
- Seb „Michael“ B (Drums)

Lyrics von "Stay":

Stop what you do everyday and call your daily routine

Don't turn your face away while I'm telling you it's gonna be your ruin

Baby don't gimme that shit let me open up that lit don't have a fit got to admit still using my wit never taking a hit

don't call me convicted of being addicted alcohol ain't the de cease of which I'm afflicted It just treats my blues better than vitamin juice makes me have a riot when I try it

because booze makes me lose but it fucks up my brain so I will stop to drink I promise you I flush my bottles down the sink

I won't drink any more yes I swear to god see me swearing right before I'm calling for a shot

Stay cause I can't find my way hold my hand and pray and help me to get through this

Help before the sun drifts far away I just need you to stay and help me to get through

Look at yourself does not the mirror tell you how you did misbehave Stop you better stop before life turns out being just a big black cave

I've seen many men drowning in booze ruining their lives cause booze made them lose but I know that you're right that you know that I'm wrong I can't keep on drinking on all day long

I won't drink any more yes I swear to god see me swearing right before I'm calling for a shot

Stay cause I can't find my way hold my hand and pray and help me to get through this

Help before the sun drifts far away I just need you to stay and help me to get through
